

# ROGAI BILIARDI

## OUR HISTORY

---

Rogai Biliardi was founded in 1950 in Florence, in the quarter named Rifredi by Emilio Rogai; since then several generations has been keeping family secrets and techniques for the creation of precious billiard tables which are recognized for their craftsmanship quality and high precision cues.

In 1960 the R.B. laboratories find their new home in the street Via del Cantone. After the famous flood that took place in Florence in 1966 the headquarters has been finally placed 7 km far from the Old Bridge in Sesto Fiorentino town where the production reaches its ideal place and the evolution where the generations learned from various carpenters and technicians to create perfect tables signed by high quality handwork.

Florence is famous for its biggest billiard school, its players who became legendary and the best artisans admired by the whole world. Mauro, Emilio's son became the part of this reality and managed to enrich his knowledge by all the billiard construction techniques.

The company's professionalism has also been enriched by the last generation which helped to create the family billiard business and a particular creative craftsmanship.

During some last years the R.B. has evolved to produce the most exclusive billiard tables for special clients; billiards and cues are made with passion in order to create something unique.

You will never find silence in the R.B.'s laboratory and the showroom, but you will find the Arts and the Beauty made in Italy.

# OUR PHILOSOPHY

---

## HIGH QUALITY

The most important thing is the R.B's excellence and the capability to create the billiards signed by prestigious standards of Made in Italy.

The craftsmanship and the high quality materials form the Rogai Biliardi's Italian style.

The value of our billiards and cues is due to our professional experience.

## STABLE EXPERIENCE & TECHNICAL PERFECTION

After a lifetime of passion for the billiards and passing the secrets of workmanship and construction techniques to younger generations, today R.B. is recognized as a master of teaching the concepts for the creation of billiards with ancient flavor and also for the realization of innovative projects.

Over half a century of billiard production for all the world's various disciplines and the choice of the world's best raw materials make RB's billiards a guarantee for a perfect game.

## AUTHENTIC CRAFTSMANSHIP

The artisan spirit allows the customization of all billiards and products; The R.B. can realize any project proposed by the customer. Any woodwork and finishing can be tailored to an idea or style of each particular interior.

The passion for work and the desire to create something unique are the requirements for an authentic Made in Italy.

## FAMILY TRADITIONS

In every R.B's production, sale or project there is a family person who grew up between billiards and sticks which follows every single project until the final delivery, taking care of each detail.

## **CUSTOMERS**

The R.B. was created in 1950 as a billiard-selling and production company for public spaces such as bars and billiards academies throughout Italy; lately we also made tables for the Italian Ministry of the Interior, the Ministry of Defense and the Bank of Italy. We also collaborate with important film productions and television. Many of Italian and foreign VIPs have their personalized Rogai billiard as well as many exclusive places such as HOTELS and CLUBS around the world. We also have some important collaborations with design studios and architects from all over the world.

## *THE BILLIARDS*

---

### **CLASSICAL BILLIARDS**

Our classic style has no age but it's a synonym of place where traditions and art creations influence forms and working process.

Just looking at it and touching it with your hand will surprise you how an object born for being a game can fascinate you and give emotions.

### **MODERN BILLIARDS**

The modern line of our billiards is the perception of style and atmosphere of design environments.

Simplicity, the desire to surprise and functionality are the essence of our modern billiards.

### **BILLIARD TABLES**

A real billiard but also a real table.

Classical or Modern style with easy-to-fit planks in all the parts or just some of them, lightweight and resistant.

The table is tailor-made and has every kind of customization from the material finishes and up to the composition.

The pleasure of having a wonderful, comfortable and stable table without renouncing the charm and the fun of playing billiards: this is the basic concept for this kind of creations.

# OUR GOALS

---

Today the R.B. is a highly recognized brand in Italy and abroad for exclusive products and perfect stylish tables, but it is also characterized by the constant search for new colors, shapes and materials. The company evolves and transforms as the styles of living changes.

The R.B. keeps constantly the classical, but it also offers innovative lines. The company fulfills the changing needs, sometimes detaching from the traditional interpretation of the billiards, in the light of a more stimulating and original vision.

Our billiards are an "element of consistency" with respect for the style of an environment or lifestyle: this concept inspires every R.B's creation and is at the base of the corporate mission that maintains its own craft spirit. The company's goals are focused on maintaining and strengthening the unique character of creations and the utmost care of details as only a handicraft company can guarantee.

Each Rogai billiard table transmits emotions and is always the protagonist of the environment he is in.

# OUR COMMITMENT TO SPORTS

---

The R.B. participates in spreading the art of billiard playing in public environments, associations and schools, confirming itself as a partner of FIBIS (Federazione Italiana del Biliardo Sportivo) both as technical consultant and the promoter of billiard sport as an Olympic discipline.

# THE BILLIARD CUES

---

The production of high quality billiard cues is considered very important for our company; In fact this allows more people and players to appreciate the value of a precious craftsmanship object carefully made for having both ballistic results as well as a beautifully made object.

*The Rogai Biliardi thanks all the champions and all the Billiard players in Italy and all around the world who have contributed to its evolution.*
